CAREER OBJECTIVE

Computer Science student proficient in Java, JavaScript, React.js, Node.js and Data Structures & Algorithms. Passionate about building efficient solutions and web applications. Seeking a dynamic role to apply my problem-solving skills and technical knowledge.

EDUCATION

Bachelor of Technology - Computer Science   *2022 – 2026 | 8.72 CGPA*
Arya College of Engineering and IT, Jaipur

Senior Secondary (XII) – Science   *2022 | 71.80%*
Saraswati Shiksha Niketan Senior Secondary School (RBSE)

Secondary (Class X)   *2020 | 60.50%*
Saraswati Shiksha Niketan Senior Secondary School (RBSE)

TECHNICAL SKILLS & TOOLS

- **Full Stack Development:** MERN Stack
- **Problem Solving:** DSA, 200+ problems solved on LeetCode, GFG
- **Languages:** Java, JavaScript, Core Python
- **Core Concepts:** OOPS, DBMS, OS
- **Tools:** Git & GitHub, VS Code, Postman, Vercel

PROJECTS

🔗 AI-Based Portfolio Website Generator and Automated Deployment (Full-Stack Project)   *March 2025*

Tech Stack: React.js | Node.js | Express | MongoDB | Rest API | NLP | GitHub | Vercel

Built an AI-based portfolio website generator with NLP-powered content creation and automated deployment.

🔗 Myntra Functional Clone (Front-End Project)   *February 2024*

Tech Stack: HTML | CSS | JavaScript | Bootstrap

Created a responsive frontend clone with listing, filtering, and cart functionality.

Event Management Application (Salesforce Project)   *August 2024*

Tech Stack: Salesforce Platform | Lightning Components | App Builder | Data Model

Built a Salesforce-based event management system with planning and analytics automation.

INTERNSHIPS

Salesforce Programming Architect – TechForce Academy   *Jun 2025 – July 2025 (Remote)*

- Designed and developed Salesforce applications using Apex, Visualforce, and LWC.
- Developed Salesforce solutions using Visualforce pages, SOQL queries, and workflow rules

Fundamentals of Salesforce – TechForce Academy   *July 2024 – August 2024 (Remote)*

- Built Event Management Application using Salesforce tools.
- Worked with Lightning Components, Process Builder, and Data Modeling.

TECHNICAL CERTIFICATIONS

Data Structure & Algorithms using Java (NPTEL)   *July 2024 - October 2024*

Google Cloud Computing Foundations & Generative AI (GOOGLE)   *April 2024 - May 2024*

Red Hat Certified System Administrator (RHCSA)   *February 2024 - April 2024*

MongoDB Basics for Students(MongoDB)   *May 2025 - June 2025*
